Field names in Winscombe and Sandford and other local place names

An alphabetical index

Introduction

This is a project started in 1996 and arose from a curiosity to know the old names of the fields in Winscombe. Most references locate fields shown on the 1838 Tithe Map, and the names are taken from the Apportionment of 1839. Where possible references are made to the earlier map made by W.White in 1792, and also to other sources where field names are given. Not every field can be located and there is much work yet to be done here. It is quite possible that same field has been indexed several times under different names, but research has not yet shown where they are one and the same.

This must be regarded as a preliminary list that will be refined as time passes.
